

Attention City Residents:

Harter's Lakeside Disposal LLC began garbage and recycling collection on Monday, September 20, 2021. As Harter's ramps up, please note the following:

- ❖ **The week of September 27, 2021 is a garbage and recycling week.**
- ❖ Harter's will collect the same green garbage and recycling carts that you are using now.
- ❖ The City will continue to collect only residential garbage and recycling. The City does not collect from schools, churches, apartments, businesses, manufacturing, or industrial properties.
- ❖ Starting **Wednesday, October 6, 2021**, garbage will be collected in existing carts and new carts will be dropped off and the old carts will be removed. Information regarding the 2021 and 2022 Garbage and Recycling Calendar, along with new information on how to recycle will be attached to the new carts. **If your garage and driveway face the street, your carts will be delivered to the front of your residence. If your garage and driveway face the alley, your carts will be delivered to the alley.** The City will not collect **private** garbage and/or recycling carts that are not from Harter's.
- ❖ Alley collection will begin once the residents receive their new garbage and recycling carts.
- ❖ If you want to keep one or both of your "old" carts for other than garbage and recycling collection, **please mark the cart with a X or call 262-284-2600 with your address** so the drivers know not to take the cart(s) away.
- ❖ The garbage and recycling schedule will be the same (hours and days) until **Friday, October 29, 2021.**
- ❖ On **Monday, November 1, 2021**, the City will be switching garbage and recycling collection days. The City will switch to Monday, Tuesday, Wednesday, and Thursday collection. The Friday collection route will move to Thursday. A small area of Wednesday's collection route will be moving to Thursday. The residents in this area will be notified of the change by mail. A small area of Friday's collection route will be moving to Tuesday. The residents in this area will also be notified by mail.
- ❖ If you have any questions regarding broken carts, new carts, missed pickups, please call the **Department of Public Works at 262-284-2600** or **Harter's at 1-920-207-4258.**

Thank you for your cooperation.
